

On February 4th, 2004 Dr. Colvin saved my daughter's life. We traveled from New Hampshire to seek the care of the devoted and talented pediatric cardiologists at NYU. We were so extremely fortunate to have Dr. Colvin perform her open heart surgery. His pioneering technique of minimally invasive open heart surgery spared Erin a scar down the center of her chest, a huge deal for a 10 year old girl! His confidence, caring, and dedication were evident from the very first moment we met him. I will never forget his blustery laugh and the twinkle in his eye. My thoughts and prayers are with his family and colleagues. We have lost a true hero.
